PROFESSIONAL SUMMARY

Computer Science Engineering student (B.E., 2023-2027) with hands-on project experience across full-stack web development, Python, and AI/ML applications, including a FastAPI and RAG-based recommendation platform. Comfortable working end to end - from React interfaces to backend APIs and machine learning integration - and seeking internship or entry-level opportunities in software engineering, web development, AI/ML.

TECHNICAL SKILLS

- Programming:** Python, Java, C
- Frontend:** HTML, CSS, React, Responsive Web Design
- Backend & APIs:** FastAPI, REST APIs
- AI/ML & Generative AI:** Machine Learning, RAG, LLM Applications, Data Processing
- Databases:** SQL, MySQL
- Tools & Technologies:** Git, GitHub, VS Code

PROJECTS

- Personal Portfolio Website** | Apr 2024
- Technologies:** *React, JavaScript, HTML, CSS, Tailwind CSS*
- Designed and built a responsive personal portfolio using React, Vite, Tailwind CSS, and Framer Motion to present technical skills, projects, and certifications.
 - Implemented a centralized data layer separating content from UI components, enabling updates without touching component code.
 - Built dark/light theme switching, animated project filtering, and a validated contact form using reusable, modular components.

- Rank2Career - AI-Powered College, Course & Counselling Decision Platform** | May 2025
- Technologies:** *Python, FastAPI, ML, RAG, LLM*
- Built an AI-powered decision platform that analyzes KCET/NEET rank, category, eligibility, and historical cutoff data to recommend suitable colleges and courses.
 - Developed backend logic in Python and FastAPI for SAFE/TARGET/DREAM classification, multi-year cutoff trend analysis, and admission prediction.
 - Integrated RAG-based information retrieval to power an AI counselling assistant that generates a personalized, ranked choice list.

- CogniBridge AI - Connecting Mentors Wisdom With Mentees Growth** | Jul 2026
- Technologies:** *Python, JavaScript, SQL*
- Built a platform that connects students with mentors based on academic interests, career goals, skills, and stated preferences.
 - Implemented the matching logic and the web interface for browsing mentor profiles and filtering by preference.
